Tug of War: Who's argument stands? Debate, ranking + justifying conclusions via #Tweacheroftheweek @HillHouseTandL

David Chalk @teacherchalky1 · Sep 20

Health & immunity interactive notebook!

Mr Smith @GeoMrSmith · Sep 29

Been creating an extension menu so kids have a choice of tasks to do as extension! #pedagoofriday

THIS WEEK'S LEARNING WALK FOCUS:

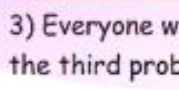

STRUCTURE IN THE SPOTLIGHT

Transferable Skills

1) The entire team work together to solve the first problem

2) Partners work together to solve the second problem

3) Everyone works alone to solve the third problem

4) Teams re-form and discuss their solutions, giving lots of praise whenever possible.

Use this structure for:

- Practising exam skills.
- Solving difficult problems.
- Embedding systems and procedures.

What's fantastic about this structure?

- Students gain confidence.
- Builds independence gradually.
- Embed the idea of "What we do together today, we can do alone tomorrow".
- Students rely on each other, and share models of good practice.
